Release Notes for Sage 100 2018.5

The following is a list of corrections and selected Enhancements added to Sage 100 2018.5

For a full list of Enhancements, refer to the What's New page inside the Product.

Product updates are cumulative; in other words, this update includes all enhancements and program corrections found in prior updates for version 2018. Smart Update will install only the programs that have been updated since your last update was installed.

Workstation Synchronization has been enhanced to update Sage 100 Standard Workstations along with Sage 100 Advanced and Premium Workstations. Sage 100 Standard Users are no longer required to run WksUpdate Standard.exe on each Sage 100 Standard Workstation.

All Sage 100 updates must be installed from the server where Sage 100 is installed.

For eBusiness Manager users upgrading for the first time to Product Update 3 or higher, you will need to perform the following one time:

1. From the Sage 100 Server, copy the following files located in the ..\MAS90\Home folder:
 - a. pvxclr4.dll
 - b. Sage.Exchange.dll
 - c. wsVault.dll
2. Copy the 3 files above to the server where the Sage 100 Web Engine is installed. The default location for the Sage 100 Web Engine installation is "C:\Program Files (x86)\Sage\Sage 100 20XX Web Engine\WEBENG\Home\", but this is configurable.
3. Restart the Web Engine and run as an application. Running the Web Engine as a Service is *not recommended* at this time. See Knowledge Base entries 82537 and 82539 for more information.

Make a copy of any existing files before replacing.

Sage 100 2018.5 (and higher) users with Payroll integrated with Bank Reconciliation, will need to also install Sage 100 Payroll 2.18.5 (or higher).

Accounts Payable

Changes from Product Update 3

- 1 The DiscountAmt field in AP_CheckHeader file now shows the total discount for all invoices included on the check.
DevID 107947 Knowledgebase ID 86447
- 2 Vendor Maintenance Invoice Inquiry feature under 'More' displays invoices generated from Purchase Order Invoice amount now matches the Net Invoice Amount displayed on the AP Invoice History drill down screen.
DevID 109243 Knowledgebase ID 90370

Changes from Product Update 2

- 3 Help for A/P Invoice History Inquiry has been enhanced.
DevID 108655
- 4 Unable to enter Amount on Credit Memo in Job Cost Distribution Detail when reversing an electronic payment is now fixed.
DevID 108917 Knowledgebase ID 89293

Changes from Product Update 1

- 5 AP invoice entry - Get 'The Vendor Number is no longer required' message when launching vendor maintenance from hyper link and the vendor number isn't blank.
DevID 108059 Knowledgebase ID 87386

- 6 Accounts Payable Adjusted Invoice No Longer Paid twice.
DevID 108269 Knowledgebase ID 86717
- 7 In Form 1099 Tax eFiling and Reporting for 1099-MISC forms, a Tax Account Number is no longer required if there is no state income to report.
DevID 108528 Knowledgebase ID 87866

Accounts Receivable

Changes from Product Update 4

- 1 Memos are no longer displayed in Customer Inquiry & Customer Maintenance when Memo Options is set to Hide and Auto Display is not checked in AR Memo Manager Maintenance for Customer Memo Type.

DevID 108529 Knowledgebase ID 87903
- 9 Fix Error: "<Customer Number> is in use by another user and can only be viewed" in Price Level by Customer Maintenance.
DevID 108639 Knowledgebase ID 88217
- 10 Error 47 CI_CustomerFormatter.pvc 100 is no longer occurred when entering cash receipts for Cash customer.
DevID 108714 Knowledgebase ID 82020
- 11 Schedule text is not displayed over Exemption No text on Sales Order Invoice Data Entry Header panel when Sales Tax Reporting is disabled.
DevID 108748 Knowledgebase ID 88622
- 12 Fixed Error: "Payroll is not installed on this system" in AR Salesperson Maintenance when clicking Link button if Payroll is not installed.
DevID 108751 Knowledgebase ID 88693

13 The Error: "65 Cl_AuditTracking.pvc 355" is not occurred when saving new credit card in customer maintenance with AR Audit tracking enabled.
DevID 108828 Knowledgebase ID 89222

14 The Cash Receipts records are updating to AR or Job Cost correctly.
DevID 108948 Knowledgebase ID 89540

Changes from Product Update 1

15 Wrong amount for discounts are not allowed and AR GL accounts posted to GL shown on Sales Journal Recap by Division when printing/updating.
DevID 107909 Knowledgebase ID 86384

Bank Reconciliation

New in Product Update 5

1 Check, Deposit and Adjustment Entry now is enable for banks that are not in use when in use message has occurred for a bank that is in use.
DevID 109985

2 Formatting enhancements have been made to the Bank Reconciliation Report.
DevID 109993

Bar Code

Changes from Product Update 4

1 An updated SetupConnectIt64.exe is being installed to the Sage 100 Server's ..\mas90\wksetup\Prerequisites\Scanco folder.
DevID 109481

2 Mobility for Bar Code Enhancement, import batching can now be controlled by a batch comment from the hand held device.
DevID 109758

Changes from Product Update 2

3 Invoices getting imported into Sage 100 through Bar Code were getting the correct Ship Date set from the Ship/Expire Date entered on the sales order.
DevID 108867

Bill of Materials

Changes from Product Update 4

1 ***Invalid Bill*** no longer prints on Summarized Bill of Materials Report for Option Bills with a component that is also a Bill of Material.
DevID 109508 Knowledgebase ID 91220

Changes from Product Update 3

2 Enhancement made to allow for syncing of Misc Charge item fields that are changed to the bill detail tables.
DevID 107155 Knowledgebase ID 80817

3 "Record <Part Number> is missing..." error no longer occurs when running the Bill of Materials Summarized Where–Used Report in Sage 100 Premium.
DevID 109057 Knowledgebase ID 89853

Changes from Product Update 2

4 The Component Extended Description will now print on first and any additional Bill of Materials Picking Sheets.
DevID 107569 Knowledgebase ID 84980

Changes from Product Update 1

- 5 Costed Bill of Materials Report run for Selection of Bills is now ignoring Integer Unit of Measure for Miscellaneous Charges.
DevID 107346 Knowledgebase ID 80821
- 6 Component Item Extended description now shows in the picking sheet printout when you pick more than one bill item to print.
DevID 108279 Knowledgebase ID 84980

Common Item

Changes from Product Update 3

- 1 In Direct Deposit Maintenance when an invalid routing/transit number is entered for the Immediate Destination a prompt now displays to accept the number.
DevID 109319 Knowledgebase ID 90839

CRM

Changes from Product Update 2

- 1 Sage 100 Rebuild CRM no longer cuts off CRM Company Names more that 30 characters long.
DevID 106109 Knowledgebase ID 77360
- 2 Added information to the "Cannot Synchronize Data with Sage CRM" message to help resolve the issue when no company records exist in Sage CRM.
DevID 106275 Knowledgebase ID 78379
- 3 Quick Order Entry Component.exe is now being installed to the servers ..\mas90\CRM directory.
DevID 106979 Knowledgebase ID 81968

DevID 107373 Knowledgebase ID 34459
- 7 The Memo button is now visible when accessing Customer Maintenance from Sage CRM.
DevID 107378 Knowledgebase ID 83287

Customizer

Changes from Product Update 3

- 1 PO Receipt Header UDF now updates PO Purchase Order Header UDF.
DevID 109212 Knowledgebase ID 84794

Changes from Product Update 2

- 2 Drop-Box UDF no longer loses Drop-Box Functionality when Panel is Modified.
DevID 104046 Knowledgebase ID 56619
- 3 Required UDF is being enforced.
DevID 108262 Knowledgebase ID 87102

e-Business Manager

Changes from Product Update 3

- 1 The message "An error occurred while attempting to process the page you requested. Contact your account representative or the Webmaster" when processing credit cards on a website using eBusiness Manager, can be resolved by copying the following files from the Sage 100 Server and adding/replacing them on the Server running the Web Engine: pvxclr4.dll, Sage.Exchange.dll, and wsVault.dll. Then run the Web Engine as an Application, not as a Service. There is another outstanding defect regarding the Web Engine running as a Service, see Knowledge Base entries 82537 and 82539.
DevID 109996 Knowledgebase ID 93566

Fixed Assets

Changes from Product Update 3

- 1 Closing date is no longer different than the Sage Fixed Assets ending date
DevID 109120 Knowledgebase ID 78842

Changes from Product Update 2

- 2 Error: "Report output exceeds printer width or record length exceeded on file write operation" is now fixed.
DevID 107558 Knowledgebase ID 84954

General Ledger

Changes from Product Update 2

- 1 General Ledger Financial Reports displayed data on Sage 100 2018.1 Premium.
DevID 108738 Knowledgebase ID 88828

Inventory Management

Changes from Product Update 3

- 1 No longer receive "Error 43 IM_LOTSERIALTRANSINQUIRY_UI.pvc 534" after selecting a Lot/Serial number with Extension greater than 99,999,999.99 in Lot/Serial Inquiry.
DevID 107059 Knowledgebase ID 82748
- 2 Tier Type is no longer missing from IM_ItemCost after update quantity committed.
DevID 109216 Knowledgebase ID 70886

Changes from Product Update 1

- 3 Unit Cost discrepancies have been corrected for FIFO component items in BOM Production Entry and Disassembly, after removing zero quantity tiers.
DevID 107341 Knowledgebase ID 78563
- 4 Corrected Inventory Transaction update to prompt to print "Daily Transaction Register" instead of "Job Daily Transaction Register".
DevID 108174
- 5 Retail Price is no longer disabled after clicking on the Additional Tab in Item Maintenance when Allow Returns is deselected.
DevID 108272 Knowledgebase ID 84240

Job Cost

New in Product Update 5

- 1 "The Exclude From Certified PR Report is not required" after restoring a Job from History to Active Jobs.
DevID 109595
- 2 Item Code description is showing correctly in Job Billing Data Entry if the transactions originating from the Purchase Order.
