2

### Product Goals

**SAGE MAS 500**

- Provide a flexible method for repetitive imports
- Replace functionality of existing imports
- Replicate MAS 90 Visual Integrator functionality

**DATA IMPORT MANAGER**

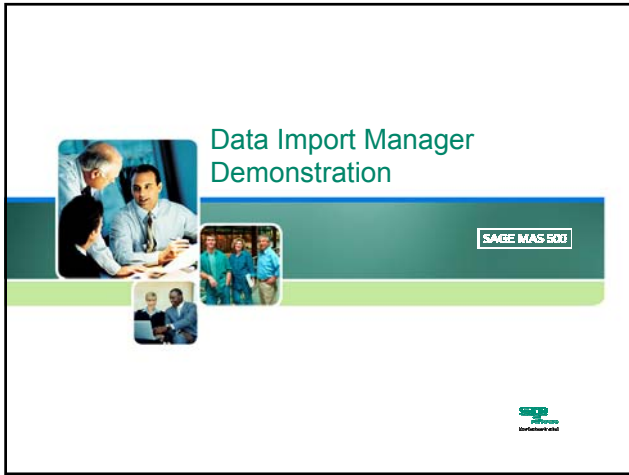

3

### Overview

**SAGE MAS 500**

- Uses .NET and SSIS technology
- Imports data from a wide variety of formats
- Uses a wizard-based data mapping interface
- Leverages built-in defaults with overrides
- Defines one-time or scheduled imports
- Provides automated error reporting
- Delivers additional security controls

4

The slide features a title 'Data Import Manager Demonstration' in green text. Below the title are three small images: a man in a suit, a group of people, and a man at a computer. A 'SAGE MAS 500' logo is in the bottom right of the image area. At the bottom center is the Sage logo with the text 'SAGE MAS 500' and 'Sage Software'.

### Technology

SAGE MAS 500

- Built using .NET technology
- Leverages SSIS (SQL Server Integration Services)
- Requires SQL Server 2005
- Stores job definitions as an SSIS package
- Uses SQL Server Agent to run import jobs
- Supports Office 2002 and 2003 and editing of staging tables in Excel 2007
- **NOTE: Office 2007 source data is not supported**

6

### Summary

SAGE MAS 500

- Leverages the latest technology (.NET and SSIS)
- Supports the import of 66 different entities
- Imports from a wide variety of formats
- Allows mapping definitions to be saved for re-use
- Automates the conversion of import data
- Simplifies the migration from competitive solutions
- Supports one-time and repetitive imports
- Replaces many existing import tools
- Provides automated error reporting
- Delivers additional security controls
- Closes a MAS 90 gap
