

PC
RETREAT
2009

Windows 7 Overview

Agenda

- Simplifies Everyday Tasks
- Works the Way You Want
- Makes New Things Possible
- Demo

 

Simplifies Everyday Tasks

- Windows Search
 - Search more efficiently across your computer, your network and the web. Search the start menu
- Manage Windows using simple mouse gestures
 - Peek behind open windows to get a quick look at other open applications
- Taskbar
 - Larger, customizable taskbar with enhanced previews
 - Get to documents and applications faster with Pinning
 - Perform tasks & open pinned or recent documents faster using Jump Lists

 

Simplifies Everyday Tasks

- Jump Lists
 - Pin my favorite files to the taskbar instead of saving them on my desktop
- Taskbar Pinning
 - Pinned applications remain on the taskbar

 

Simplifies Everyday Tasks

- Enhanced Previews
 - Show graphic thumbnails of the open windows
- Device Stage
 - Helps you get the most from your devices.
 - Lets you see device status and run common tasks from a single window
 - Opens from the SYSTRAY

 

Works the Way You Want

- Windows Anytime Upgrade
 - Quickly and easily upgrade from one edition of Windows 7 to another in about 10 minutes
 - Without requiring physical media
- Faster & More Responsive
 - Faster boot and shut-down time
- Faster Access to Power Plans
 - Helps extend the batter life of mobile PC's

 

Works the Way You Want

- Improved Security
 - AppLocker
 - Keep applications from running on the desktop/network
 - BitLocker and BitLocker To Go
 - File encryption
- User Account Control
 - First introduced in Vista
 - Fewer prompts & more control over settings
 - UAC limits a program's access to sensitive areas of Windows
 - You can turn it completely off using "msconfig"
 - Let me show you
